## SUMMARY

---

As a third-year BS-MS Mathematics and Computing student at NIT Agartala, I have developed a keen interest in the application of mathematical and computational principles to solve real-world problems. My technical skills include expertise in HTML/CSS/JavaScript/C++ programming languages, which I have utilized in various academic and personal projects.

## PROJECTS

---

### COLLEGE CODE — A Coding learning website

This is a website created by me by using the tools like HTML, CSS, JavaScript to help college going student in learning coding. And also they can publish their articles on it.

### TIC-TAC-TOE

A Two player classical game tests for analytical and predictability skills of both the players developed by using basic HTML , CSS and JAVASCRIPT.

### Personal Portfolio website

[iamsahilraj](#)

This is a website created by me with help of tools like HTML and CSS to help the people who wants to connect with me.
